The North Hi Breeze

By LEILA SANTOR

Class of '57 members seem to have perpetual smiles on their faces as their traditions were approved recently, and have gone into effect.

Seniors have the right to leave first at any assembly. They have a special section at assemblies, at all home athletic events, and at any other school gathering.

Two tables in the cafeteria are for senior use only. The class emblem has been painted on the quad and the senior patio is soon to be a reality.

"The seniors are very happy with the cooperation thus far shown by the underclassmen and sincerely hope that for their sake as well as theirs that these traditions will be upheld in the coming years," stated Sandy Ford, senior class prexy.

Our appreciation goes to the basketball players who unselfishly have given up their vacation time to practice for the coming games.

"Dear Ruth," the senior play, is in rehearsal at this

time. Saxons are looking forward to seeing this romantic comedy starring Sandy Ford, Larry Cornwall, Sharyn Rich, Mike Luongo, and many more talented seniors.

It is directed by Mrs. Betty Lou Warren, drama instructor, and Christa Volkman is student director.

Amy Akashi is the newly elected president of Future Teachers of America, along with Mike Lasky who is chairman for second lunch. Other officers are Mary Ogawa, vice president; Marilyn Herby, secretary; Joan Clemas, treasurer; Joyce Flocken, historian; Jean Wagner, librarian, and Janet Johnson, parliamentarian.

Sponsors are Miss V. Jennett and Mr. John Crowlie.

Applying for the American Field Service sponsored summer in Europe are Becky Reynoso, Leila Santor, Marjorie Towle and Jean Wagner. One of these four will live with a family, taking part in all its customs and other affairs.

WEEK-END

Gun Moll, Pal Rob Man in Lot

A blonde young woman a bandit and her burly male accomplice got more than \$2000 when they kidnaped and robbed an oil company employe here late Friday afternoon, according to police.

Andrew Russo, 26, of 17519 Patronella Ave., said he was accosted by the pair after he entered his pickup truck in a parking lot on the south side of Marcelina Ave., west of Cabrillo Ave.

Russo said the man threatened him with an automatic pistol and growled: "Move over. Keep calm and you'll be all right. This gun has a hair trigger."

Executive Killed

Alden G. Roach, president of Columbia-Geneva Steel Division of United States Steel Corp., and two company pilots were killed Thursday night in a Pennsylvania plane crash. Mr. Roach was on his way to the West Coast to spend Christmas with his family.

A twin-engine Lockheed with Pilot Roy Rollo and Copilot L. T. Williams, both of Los Angeles, was taking Mr. Roach to New York where he planned to fly to San Francisco.

The 55-year-old steel executive, who was the top officer of the Torrance plant of Columbia-Geneva, had been in Pittsburgh, Pa., for two days attending a meeting of U. S. Steel Corp. executives. West-bound flights from Pittsburgh had been canceled because of weather, so Mr. Roach was being flown to New York when the crash occurred.

Aspirin Kills Tot

A baby girl died at Harbor General Hospital, Friday, after gulping aspirin at her home, here.

Charlia Louise White, 20 months, succumbed to the effects of 140 grains of the tablets she ate, apparently in the belief that they were candy.

She was rushed to the hospital by her parents, Mr. and Mrs. Hayes White at 21736 Palos Verdes Blvd., shortly after the incident Thursday night.

Sand Pit Under Fire

Several cases before the Torrance Planning Commission brought heated discussion Wednesday night, but one of them was dismissed as a matter not properly before the group.

A study of zoning for planting along the north edge of the Torrance Sand and Gravel Co., brought heated discussion among residents of the area. C. W. Shepherd, representing the firm, explained that the area will be used for planting to screen company operations and to serve as a youth area. A Scout Hall now is being built

there, and plans are being made to donate a Little League ball diamond there, he said. The area includes 25 acres.

Residents Skeptical
A number of residents were skeptical as to the plans and complained of noises created by the company's trucks.

Airport Jobs Asked

A \$41,000 improvement program for Torrance Municipal Airport was outlined Thursday night by Councilman Robert B. Jahn at a joint meeting of the airport commission and members of the City Council.

The program would include construction of the controversial touch and go landing strip at the field, but only after activation of a radio control tower and installation of runway lights. His proposals were received without comment at the meeting, and will be under discussion by the commission next Thursday evening at its regular December meeting.

No mention was made of an access road to keep cars off runways.

Baron Sets Hot Pace

Bill Baron of Long Beach State College, and former top Torrance High School hoop star, is 10th among the nation's leading small college scorers in basketball to date, according to statistics recently released by the NCAA Press Bureau.

Aircrafters Hiked

More than 7000 salaried employes of Douglas Aircraft Co. will have their incomes increased from 4 to 7 per cent, effective Jan. 7.

Jaycees Week Set

Mayor Albert Isen has proclaimed Jan. 20-25, 1957, as "Junior Chamber of Commerce" week in Torrance, to observe the founding of the Junior Chamber of Commerce, and the selection of the "outstanding young man" of this community as recipient of the distinguished service award.

The citizens of Torrance are urged to nominate their choice as the most outstanding young man to receive this award.

Official nomination blanks are available at the Chamber of Commerce building, 1345 El Prado.

Deadline for filing is midnight, Dec. 31.

Hospital Pushed

Petitions seeking a district hospital for Torrance have been filed with the County Boundary Commission, it was reported yesterday.

According to County building sources, a petition was filed with the Boundary Commission Dec. 14 by Richard Person who gave his address as the Hermosa Biltmore Hotel in Hermosa Beach. A tentative hearing on the petition is scheduled for Jan. 16.

HELPS CELEBRATION . . . Four-year-old Gloria Jean Nichols, of 1821 Lomita Blvd., helps Manager M. L. "Shorty" Modeland as he throws a party at the Lomita Jim Dandy last week end. In addition to the pony rides and other attractions for the children, Modeland had the popular Tex Williams' band playing at the market.

Christmas Funds Used By Teenagers to Aid Family

If the friends of Paul Shyhl and Richard Portluck are wondering what happened to the boys over the Christmas holiday, this might serve as an explanation.

The two teen-agers had been earning money by mowing lawns, and delivering papers

during the past three months to build up a Christmas fund to buy gifts for friends and members of their families.

Their project was side-tracked, however, when they heard of a Walteria family that was looking forward to a bleak Christmas. Learning of the family through Postmaster Clara Conner, the boys pooled their funds, and purchased food, presents for the children, and a Christmas tree for the family home. Last week end they were busy as bees wrapping the packages.

El Camino to Add Course In Statistics

a course in statistics to its spring curriculum it was announced today by Dr. William H. Harless, director of instruction at the college.

Title of the course will be Math 7, elementary statistics, and Dr. Hale Pickett has been delegated to instruct the class. Dr. Pickett has taught the same class at other colleges and universities.

The recent addition to the curriculum is in answer to a heavy demand from surrounding communities for instruction in this field.

This course will cover frequency distributions, measures of variability, central tendency, normal and binomial distributions, curve fitting, linear correlation, and regression. It will emphasize practical application and the collecting and analyzing of raw data.

Prerequisites to enrollment in the class include credit in intermediate algebra or examination in placement exams for college algebra.

Spring semester class schedules reveal that provisions have been made for two sections of the class to be offered, one in the day and one in evening sessions.

THE "OLD SYSTEM"

Early air conditioning "systems" installed by ancient Egyptian pharaohs and Roman nobles consisted of using slaves to bring blocks of ice and snow from mountain ranges to be placed on palace roof-tops.
